- ★ Over 600 references to local companies and their divisions who represent approximately 2000 worldwide manufacturers in the electronics industry.
- ★ Over 1900 product categories specific to the electronics industry.
- ★ Over 3600 Principal and Trade Name cross references.
- Easy-to-use format with 94 computer generated Charts which break product areas into detailed sub-groups and identify the Australian suppliers for each one.
- ★ Used as an index to Technical Indexes' Electronics Data System which contains over 150,000 pages of technical product data on microfiche.
